Christmas 2009 and
Easter 2010 Outreaches

Project Update
September 30, 2010

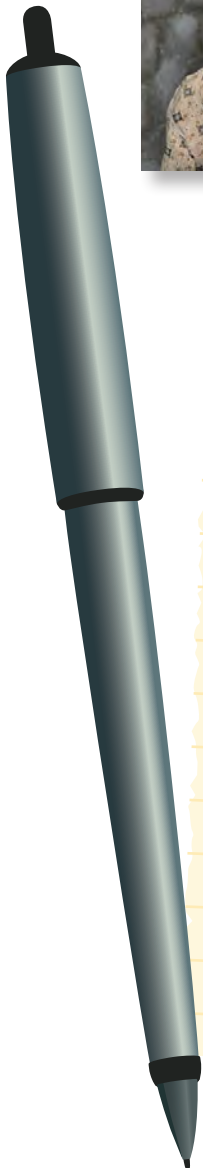

Muslim and fortune tellers' children.

Home #6

We also visited the Kanakaiah family. They are also hosting a MHI club of 15 children. This family is located in Samainagar area of the town of Hanamkoda. This is a slum area where the government has come in and provided housing for the people. The children in this area only know their local language of Oriya. The TMC teacher has to translate the Telugu material so the children can understand. These children are currently working on Explorers 1, since they have only started recently with the lessons. This is the second round of children in this home. Over twenty children finished the first round of lessons. Some twenty homes in this Muslim area are working with the children in the MHI project. All the children are either Muslim or are children of the fortune tellers. Now, these children are coming together in his home to study about the one true God!

Home #7

In the same area of Samaih Nagar, Pastor Anandam is overseeing the MHI clubs in the area; he has one small club in his own home. He started the first round with only 2 children. But those children were so happy with the lessons that they invited some of their friend to take the lessons. Now there are 6 children completing the lessons from different faiths. Both Muslim and Hindu children are coming together in this house to study the Good News of Jesus Christ! The teacher of this club is an excited young girl of 19. Her name is Saroja. She was happy to show us what the children have learned so far through the lessons!

Home #8

We traveled to an area known as the Bananjara Colony. This is an area that twenty years earlier was settled by tribal gypsy people. The government of India has come in and built small structures for them to live in. The teacher of this club is a young man named Kumar. He and his sister teach the lessons in their home. All these children are on the first round of studying the material. 25 children meet regularly each week to study the lessons. These children are currently working on Explorers 2 lesson 6. Most of these tribal children are attending English medium schools. It was a joy to hear them quote their Bible lessons and sing praises to the Lord!

Tribal gypsy children.

Home #9

We joined with the Anuradha family in the Laxmi-puram area of Warangal. This area is named after the goddess of wealth, Laxmi. We were able to pass out certificates of completion to the 28 children. These first round students had just completed Explorers course 2 completing all 24 lessons of the program. The children study the lessons in 17 homes around that area. They all came together that night in one house so that we could pass out the certificates. They were excited to meet their Mailbox Club "Uncle from America." One young girl stood and led the other children in a song naming all 66 books of the Bible in order. Many children quoted the Bible verses they had taken to their hearts. It was a blessing seeing how excited these children are about learning about God.

Leaders from the host home giving out certificates.
